TESTIMONIALS.

From Mr. JOHN J. MANOR, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English longwoolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

Ayer's Cherry Pectoral

Ayer's Cherry Pectoral

is an anodyne expectorant for diseases of the Throat and Lungs, and the most efficacious preventive and cure that science has produced. Its value in controlling and curing colds and affections of the Throat and Lungs, and in the protection it affords from these dangerous complaints, cannot be overestimated; and it is adapted to patients of any age or either sex.

AYER'S CHERRY PECTORAL strikes at the very foundation of all pulmonary diseases, and rapidly cures Colds, Coughs, Quinsy, Bronchitis, Laryngitis, Asthma, Croup, Sore Throat, Hoarseness, Catharrh and Influenza, and affords the most effectual relief for Whooping-Cough, and Consumption in its advanced stages.

THE CHERRY PECTORAL is especially valuable as a ready remedy for the numerous distressing throat and lung diseases of children; and those who have once known its virtues will never be without it.

Rumours that the Chilians will evacuate Lima and Callao and allow the Peruvians to elect a Government to make peace.

THE GOVERNOR'S TRIP.

Governor Rocha has just concluded an eighteen days' trip through the camp, and since his return to town so much noise has been made about the federalization of the Province, that we begin to connect H.E. trip with this great, statesman-like step, which, if carried out, through Governor Rocha's instrumentality, will doubtless result in

The colony of Olavarria is the only colony H.E. visited in all his trip. H.E. is not to blame much, however, as it is the only colony to be found in the province down there. We are all very great and fast people in town; some of us can write Latin verses and conjugate the hardest Greek verbs, but the Santa-Fecinos are far and away ahead of us in the line of colonies, and Olavarria is but a standing sarcasm on all our previous Provincial Government Administrations. The days are gone when people in Buenos Aires talked of a hundred Chivilcoys. A full quarter of a century has rolled by and, 'dictu mirabile,' we have one Olavarria. Governor Rocha and Madame Rocha acted as sponsors for the new church of the little colony. The Governor and his wife were never better employed than with church and schools; and a few gratis copies of Dr. Varela's sublime lecture on the Education of Women ought to be given by Madame Rocha to the wives of the Olavarria colonists.

New bridges the Governor has promised to put over the Sauce Grande, Corto and other rivers. All this means well for the camp—the regret is that twenty years ago these bridges were not put up; but better late than never, and the foreigners who have invested so largely in camp down there will bless the name of Governor Rocha and his wife, if the bridges are put up without further delay.

The Governor and Madame Rocha were hospitably and splendidly entertained at Mallalanquen, Mr. George Keen's estancia. The house is seated in the centre of a fine English park, with flower gardens and all that makes up an elegant estancia residence, on every side. Nothing of the cow's head for chairs and the 'asador' stuck in the middle of the patio are to be seen at this model estancia, whose very name in Celtic signifies 'Cead mille failtha.'

40,000 head of cattle are on the land. What a fortune when the Haslam ships come? 8,000 ostriches. This beats San Blas. We know of no other place in the country that can boast of 8,000 ostriches, and the birds all tame and in 'potreros.'

At Bahia Blanca the whole town turned out to welcome the Governor and his wife. The approach to the town by land is far better and more favorable for first impressions than by sea. You escape the crabs, entering the town from the camp across the Naposta River. Governor Rocha, when he saw Bahia Blanca, its splendid Bay, safe anchorage etc., admitted that the *Staudard* was right and that it is the proper site for the new Capital of the Province, but now it is too late, and even in Bahia Blanca they say the whole province is to be federalized.

The drive through the Mountains of Curamalan was the most delightful part of the governor's trip. The scenery in parts reminds one of the Dargle in the County Wicklow Ireland. Other portions are pieces of dear old Tijica; the passes through the mountains are very commanding and romantic. To the summit of the highest peak of Curamalan Governor Rocha ascended and viewed in his mind's eye the whole province that lay beneath,

and more rapid than in any other country. We have, it is estimated, one hundred million sheep. No land under the sun boasts of such a stock; and if for mere melting or graseria purposes our capones sell for 40 or 50$ m|c., clear it is when the mutton goes fresh to London they will be worth 100 and 125$ m|c. each. We give our readers now the very latest about this grand patent :—

Meat-Freezing Works. The freezing appliances in connection with the works of the Frozen Meat Company at Queensport are now completed, says the *Queenslander*, and have been tested with thoroughly satisfactory results. The portion of the works of the company for carrying on this part of their business is a separate building, and consists of the cold-air machine, receiving rooms, chilling and freezing rooms and discharging chambers. The cold-air machine, which was manufactured by Messrs Easlam and Co, of Derby, England, works with 48lbs of steam, giving 60 revolutions to the minute. By this machine the air is first compressed and then passes into a receiver, from which it is conveyed as required into an expansion cylinder, and thence to the freezing room. When it enters the receiver or reservoir, is is of its natural temperature of about 80 degs, and is there cooled to 30 degs. Fahrenheit by means of cold air which comes back from the freezing rooms. In this state it goes into the expansion cylinder, and is further cooled to 30 degs. below zero by sudden expansion, this being the temperature at which it reaches the freezing rooms. It is conveyed to these chambers by means of insulated tubes. The three freezing chambers are each 30 feet by 12 feet, and are approached through the chilling rooms, of which there are a corresponding number of the same dimensions, these again being reached from the receiving room, 40 feet by 10 feet. On the opposite side of the freezing rooms are a similar number of discharging or ante-chambers. The total thickness of the walls of all these rooms is 3 feet, and they are composed of two separate layers of charcoal and two air-spaces, the floor and ceiling being insulated in a similar way. The chilling-rooms and discharging chambers being on either side of the freezing-rooms, and the doors of the former being always closed, on entering, before those of the freezing chambers are opened, the latent heat is kept from the latter, and the outer chambers thus assist in keeping the others cool. When one enters the chilling-rooms the change of temperature is very perceptible, and any one at all subject to sore throats has to take the precaution before proceeding further of buttoning up his coat collar and muffling his neck with his handkerchief. The first indications of the state of the atmosphere within are seen on the doors of the freezing chambers, where, near the smallest crevices, little pieces of ice are observable. On entering either of the chambers one finds himself at once translated into the atmosphere of a Canadian winter, the thermometer standing at zero, and, consequently, showing 32 degrees of frost. Running along one side of each of these freezing chambers is the insulated tube through which the cold air is brought from the machine, these being fitted with valves by which the supply of air to the rooms can be regulated. On [illegible] ably have an opportunity of judging for themselves of the way in which meat can be preserved by this process. The barge by which the company intend taking their frozen meat to the Bay is being built by Messrs J W Sutton and Co, at their new works, Kangaroo Point. She will be an iron screw steamer of 300 tons burden, 130 feet over all, 25 feet beam, with a depth of 10 feet, her draught of water being about 4 feet 6 inches. She will be supplied with a cold air machine and two freezing chambers—one at each end of the vessel—these chambers being constructed on the same principle as those at the company's works. As yet no definite arrangements have been made for steamers fitted with freezing chambers to trade between Brisbane and England, but it is hoped that, when it is shown that the company are prepared to supply large cargoes of properly frozen carcases, such steamers will be forthcoming.

LOSS OF THE R.M.S. DOURO

The night of the 2nd April was beautifully fine and the sea like glass, as the R M S Douro sped on her way from Lisbon to Southampton, the passengers all thinking on their proximity to home, ignorant of the fearful catastrophe in store for them. About a quarter before 11 p.m. when off CapeFinisterre, the look-out at the bow saw a steamer coming right towards him, ahead, and sang out at once. The Douro's helm was at once changed and signals were made to warn the approaching vessel, which was the Spanish steamer Irurac-bat; but she did not understand them and put her helm the wrong way.

The result was inevitable. On she came through the calm sea, and then there was a fearful crash and grinding sound. She had struck the Douro amidships, near the engine-room, opening a tremendous rent in her starboard side, through which the water rushed in with fatal rapidity. Almost simultaneously with the noise of the shock a cry of terror rose from the passengers of both steamers. Those of the Douro were on deck in a minute, and for some time despairing confusion prevailed amongst them.

In the terrible emergency the captain and all his officers displayed that serene coolness in face of peril which always distinguishes British sailors. The captain's first effort was to calm the terrified passengers, and he succeeded in a great measure. Simultaneously the life boats, of which there were six on board, were lowered; only four were available however, as two had been smashed by the collision, as well as three ordinary boats. The panic among the passengers increased again while the boats were being lowered, and painful cries and shrieks came from the females.

"The women first!" shouted the Captain. The officers stood by to direct the embarkation. While the female passengers were being helped into the life boat the captain caught sight of one of the sailors who was about to jump into the boat with the women. With one blow the captain laid the coward prostrate on the deck. While the passengers were getting into the boats the chief engineer and his subordinates were remarkable for their

The deed is done. Hurrah! The Provincial Deputies met on Thursday night, and, after a mock debate of about *one* hour, passed the monstrous new Capital Law by 25 to 3 votes! This is really grand news, as it may be considered the first step towards the federalization of this province. It is said that Governor Roach will veto the Bill.

The French mail steamer Bourgogne has brought details, although meagre ones, of the loss of the Douro. They will be found in another column.

The latest European papers report that the Communists are now raising their heads in Italy. On the anniversary of the Paris Commune, revolutionary meetings were held in several Italian cities, and the Church and Monarchy denounced in ferocious terms. Anarchy threatens Italy everywhere.

Sign of rain yesterday, and the estancieros are looking a little less blue. They now fix their hopes on the full moon due on the 3rd prox.

The cry for the federalization of the province is getting louder daily. If the estancieros want to save themselves from Blue Ruin through intense taxation, then they had bettor be up and doing at once. People want to know what the old Stick-in-the-Mud (Rural) Society is doing or intends doing, in face of the threatened tax on sheep and cows?

The Sisters Pace have arrived from Europe to teach the fair Porteñas how to sing, play the piano and compose music. They are distinguished graduates of several schools of music in Europe, and their terms are as follows :

1 lesson in singing, piano and composition $60.
1 lesson in any two of above $50,
1 lesson in each of above $40.

In the Exhibition Raffle there will be 50,000 numbers at $50 m|c each, $10 for each fifth) and a third of the numbers will be awarded prizes. The latter are of the most varied kind—cash, jewels, furniture, dresses, lace, embroidery, ploughs, binders, reapers, sewing machines, biscuits, jam, oil paintings &c. There 'll be lots of fun out of this Raffle, that's plain, and some people will make their fortune.

We have news for all those who believe that Man is descended from the Monkey. An old British resident has in his possession the self-same looking-glass with the aid of which Darwin used to shave himself when here in 1831. The owner, who is also a subscriber since the hour the *Standard* started, has promised us the looking-glass for our Museum *when* we reopen it.

Oh! The Western Railway has discovered that well-to-do people have for a long time been getting carried to and buried in the Chacarita for half-nothing, their relatives passing them off as 'pobres de so-

[illegible] edagogues had a lively day [illegible] on Thursday, the subject of debate being a motion declaring that school teachers should hold their posts in perpetuity and not be liable to removal. Most of the teachers opposed this absurd proposal, and the distinguished Brazilian orator Baron Macahubas floored it and made all the ladies present cry like watering carts by drawing an affecting picture of an imaginary pedagogue with a cane in his hand, teaching the young idea how to shout and shoot at the same time. There was a ludicrous row on the divison, when the similarity of the words 'inamovilidad' and 'movilidad' caused many to vote the wrong way. People ask what practical good are we to expect out of all the talk about education now going on in Plaza Once?

The news by R M S Trent has been telegraphed from Pernambuco to the *Nacion*. Things are looking so queer in Egypt that the *Times* advises England to interfere there, as there is not an ounce of stability in any one of the Governments that succeed each other there with such rapidity. Another uneasy sign of the times is that General Ignatieff is going as Russian Ambassador to Paris. He is a stormy petrel and generally brings about a row when sent to the front, Roscommon was illuminated on Mr Parnell's release, and the windows of any house that were not lighted up were smashed to atoms.

The distribution of prizes at Mr Neumeier's Colegie Nuevo, 426 Calle Rivadavia, will take place on Monday next. Neat invitation cards were sent round yesterday.

A dreadful accident occurred at Flores on Thursday night to a little mulatto servant girl in Mrs Cazanave's service. She opened a door suddenly and the gust of air caused a lighted kerosene lamp to explode, scattering the burning oil over her clothes. She rushed into the garden in a flame, wild with terror, and ran here and there with such speed that before the family could come to her assistance all her clothes were literally burned off her back, and she died in an hour or so, in spite of the efforts of the doctors who were summoned.

We have news that turfites will be sorry to hear, from the famed Las Rosas stud: Bright-eye, mother of Blissful, picked her colt foal some days ago.

Small-pox is rather bad now in Montevideo and its suburbs, so all the Orientals now in town for the Exhibition should stay here during the winter, lest they get their beauty spoiled by returning home too soon.

There was a stiff breeze in the Provincial Senate on Thursday on the subject of the recent elections in the 3rd. Section. All the elect were approved but one. Dean Dillon and Messrs. Uriburu and Cuenca were named as a Special Committee to enquire into the objections raised against the newly elected Senator.

One suicide and two attempts at it were reported in yesterday's papers.

People travelling by tram should keep a very sharp eye on their watches and pockets, as the swell-mob make the cars their happiest hunting grounds. The tramway managers and the police are the best allies the thieves have, as they allow the cars to be so overcrowded that it is quite an easy matter to filch watches, chains, and purses without detection. As a rule our country cousins in town for the Exhibition are the favoured victims, and some of them will take home most unpleasant recollections of their visit to the metropolis.

The West Coast papers by the Aconcagua are totally devoid of interest. They say that Minister Hurlbut's death caused a most painful sensation in Lima.

The *Libertad* says that the new Provincial Deputies who took the oath yesterday were got up in the 'heaviest' way for the occasion—inky new black, patent leather boots, lavender kids and snowy choker. And why not, pray?

Sr Calaza, Chief of the Fire Brigade, is going to Europe to buy all [illegible] for the estimable purpose of converting the notes of the Provincial Bank of Santa Fe. People here don't quite understand this sudden conversion scheme and want to hear more about it. The rise in the premium on gold in Rosario does not seem very favourable for conversion schemes, and 'billetes' are now quoted there at 17 and gold 6½ The very severe drought all over the province of Santa Fe is causing much alarm to estancieros. All the lagunas are drying up as fast as they can, and the cows are miserably thin.

Messrs C & J C Bell, of this [illegible] favored us with the following [illegible]ful statistics about the Irish whiskey trade:—

From the annual returns just made up, it seems that there has been a considerable increase in the amount of whiskey exported from Dublin during the year (1881), as compared with 1880:—

Particulars for the past four years [illegible] subjoined—

	Butts and Kins.	Hhds.	Carks.	Half casks.	Cases.
1878—	6,721	10,700	941	6,144	7,993
1879—	6,034	11,159	855	6,689	6,689
1880—	5,277	6,383	1,197	6,116	15,200
1881—	4,969	10,201	1,415	6,447	22,201

N.B.—It is noteworthy that of the total quantity of cases whiskey, Messrs Edward & John Burke, of Dublin, shipped nine-tenths, viz:—19,537 cases, out of the total 22,201 cases besides a considerable share of the exports in bulk, and the fact that the shipments from this house alone last year amounted to nearly three times the total exports of cased whiskey in 1879, is a gratifying fact for the proprietors of that admired brand, evidencing its growing popularity.

National Bank Shares	112

The Bolsa was crowded this morning at an early hour, the sure sign of a busy day. Gold was in demand to pay vencimientos, and 10 cents had to be paid for about 40,000 bought for to-day and to-morrow. Although gold ruled so hard on Change it was announced at an early hour that to-day the Bank board would pass the new rule accepting paper money for gold vencimientos. Nearly all the money Lent out on stocks in the market is in gold, discounters prefer lending in gold to paper, and hence as the call loans fall due, the gold has to be bought, but the Bank by passing this new rule will effectually ease the market, as henceforward most of the applications for discount at the Bank will be in gold instead of paper.

In Cedulas there was a larger business done than usual, owing to the month's requirements, close on 100,000 cedulas sold. Series A rules a shade firmer and done at ½ premium, in E the bulk of the business done at 84½ and ½ on time.

The Bolsa liquidator put up notice on board advising parties with accounts with the late Mr Wendroff to pass same to Mr Bielestein official liquidator.

Nat. Bank shares opened very easy at 112 cash, only 130 sold, and at 112½ for to-morrow; they at once stiffened and advanced to 114, where they halted, the brokers of the Syndic king at once beginning to sell right and left for to-morrow, which rought prices in a tumble down to 111½ after which they continued fluctuating ½ to ½ finally closing for to-morrow at 111½, sales 6,900. For May there was a decided push to buy, and the brokers who sold for to-morrow, bought everything offered for May, but the split continues, 'nuovi sistemi.' The end of the month is at hand 'Pochi giorni il separano, non e difficile prevedere' the closing price, as the market is still oversold. The Italian element on Change is growing stronger than ever, and at certain hours of the day, and certain corners of the Bolsa, one hears more Italian than Spanish spoken. The sales for May reached a total of 4300, beginning at 113¾, runing to 114¾, and closing at 113 buyers, total day's sales 11,330.

What no one looked forward to occurred today; the outside King sold for to-morrow and bought for May, an operation which none of the brokers understood; the speculation for a rise for May is declared, and all the ring buys for May. At 1 o'clock shares for to-morrow, end of month, were superabundant, whilst for end of May were very scarce. The liquidation this month will result in great gains for the ring, heavy loss a outside, and the delivery by one party of at least 7,000 shares 'effectivos'. Possibly since speculation has begun in those shares we have not had such a liquidation as this month's, and its chief feature of importance is the gigantic business thrown upon the ring by a split between the members of the great Italian Syndicate. The fight between two of the Bank Share Agamemnons has been the severest thing we have seen on 'Change for years, and must necessarily result in sharp loss to one or other of the belligerents, but the amount of fresh money brought on the market for speculation was never as large as at present. Yesterday afternoon money was so superabundantly offered on shares that rates fell from 12 to 10 o/o per annum. To-day the May speculation brought the ready money men to the ring who could easily make a difference of from 1 to 1½ between buying cash and selling for May.

Gold, as we have noted for the last few days, has been increasingly in demand, and now parties who have gold obligations in market to meet are obliged to pay 10 o/o prem. to obtain the precious metal. Sales were made this morning at 10 o/o premium, which always leaves to holders a premium and to brokers a commission. The Provincial Bank is absorbing all the gold in the market, and the Directors would act wisely to let go a little in view of the very large amount they have on hand, and lying to their credit in London; moreover the Bank can count at the end of the year on the other half of the loan being done, as Messrs Baring Brothers had they so desired might have launched the whole loan the other day instead of only the half.

The sale of one of the finest and most commanding city sites, overlooking the river, for 600,000 m|c is reported; the ground is situated Calles 25 de Mayo and Paseo Julio, and just the spot to erect a handsome town residence. Dr Juarez Celman, the popular and talented Governor of Cordoba, is the buyer, which gives us the hope that when H.E. surrenders the Cordobese reins of office he will come and dwell amongst us.

On Sunday Messrs Ebbecke & Diekelmann will sell the handsome household furniture of Mr Puentes, who leaves immediately for Europe. We advise those who want to buy good furniture cheap to attend.

A splendid property in Misiones, 100 square leagues of land, all measured and mojoned, was offered on sale to-day. The price asked is we believe 1,000 pats per league.

There was much talk on 'Change of the National Government edict ordering the Sectional Judge for the Capital of the Province of B. Aires to at once proceed to Mercedes and open his Court to-day. This shows how the wind blows in official quarters, however, the removal of this Judge to Mercedes will cause no inconveniences to merchants or city residents, as Judge Tedin is the Federal Judge for the Capital of the Republic, and will remain always here.

There is talk on 'Change of starting a new Bolsa at the corner of Piedad and Reconquista, a truly magnificent site. We refer the matter to Mr Moore to hear his views on the scheme.

The sales at the ring were as follows :—

BAYARD Y MUNICIPAL, de sangre pura fueron introducidos al pais por la Compania, comprados en el castillo Mille Secourse cerca de Burdeos.
PRESIDENTE tambien puro, nacio en el establecimiento Matanzas arriba mencionado.

Creemos inutil el entrar en mayores detalles sobre la cria Percheron, que es una de las razas mas convenientes para la cruza con yeguas del pais, pues son animales fuertes, elegantes, fogosos y al mismo tiempo de una docilidad que no se encuentran en ningun otro.

Tenemos una prueba de ello en las varias yuntas que se ven en las calles de la ciudad procedentes de la cria del senor Cambaceres, unico criador de esta raza que ha espendido hasta ahora sus productos al publico.

La Compania del Tramway, hasta la fecha habia unicamente espuesto sus crias en varias exposiciones, obteniendo siempre premios, pero sin ofrecerlas en venta; hoy que lo hacen tienen los criadores una brillante ocasion para hacerse de animales de primer orden.

Los caballos y yeguas pueden verse en las caballerizas de la Compania en las 6 Esquinas de dos dias antes del remate en nuestra casa San Martin 51.

NEW YORK.

Only iron of the highest grade is employed in the manufacture of these Ranges, which for strength, durability and construction are incomparably superior to the ordinary class of stoves.

The only GOLD MEDAL awarded at the Paris Exhibition 1878 for this class of cooking apparatus, was taken by this firm; and, at the Sidney Exhibition 1880 in addition to the Gold Medal the SPECIAL AWARD FOR MERIT was given.

The celebrated 'Uncle Sam' series of ranges are reputed to be the most economical, effective and practical ever produced, and are sure to give satisfaction in every respect. Care being taken to replace the fine links and linings when burnt out, which are supplied as required, at a moderate price, these ranges can last and be kept always in perfect order for many years.

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f.2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado a amortizarlo, y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son :

Serie E.

Dura 20 años 100 dias 5 o/o de interes, 2 o/o de amortizacion y 1 1/2 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco, El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando al mismo tiempo su estension, el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f.50 que es el minimum de las que emite el Establecimiento.

gardens. It is considered essential that he should take exercise every day in order to counteract the evils of overfeeding. A pair of small African elephants, a few feet in height, will probably take Jumbo's place on his departure. It is stated that if a sum of £15,000 can be raised or duly guaranteed by Saturday next for the repurchase of Jumbo, Mr Barnum's agent would be willing to telegraph to that gentleman for his sanction to an arrangement by which the elephant would remain in England.

It will stand on record in the annals of the Zoological Society that the numerical returns collected from the turnstiles admitting to the grounds, for the past fortnight, exceed the total of any previous month, even though it be the period which included that memorable Whit-Monday following the return of the Prince of Wales from India, when the Royal collection of elephants, tigers, cheetahs, deer, blackbuck, and other animals, filling seventeen capacious vans, afforded such attraction to the public as the English Jardin des Plantes had never before known. Last Tuesday, it was remarked that the assemblage of private carriages in the neighbourhood of the main entrance was larger than had ever congregated in that vicinity ; and yesterday's brilliant weather conduced, with the growing interest in Jumbo, to equal the display. Coronets and mitres on many of the coach-panels told the outside wayfarers what manner of visitors had entered at the gates; and, though the most notable order of patrons, as a rule, can only be looked for on those fashionable Saturdays of the season when the band plays, or on Sundays, when the paying public is excluded, a temporary exception has come to pass, and every day is a festival in honour of Jumbo. Fauxrewells are pencilled on the side of his box, within and without, and parting gifts, for which he cares not a wisp of hay, are delivered with the regularity so creditable to the parcels-post. Considerate adjurations to Jumbo, not to over-feed himself, are, we may state, for the relief of many anxious minds, totally needless. Elephants, though resembling pigs in the fact that they are likewise pachydermatous, differ so far in the matter of eating that they never take more than is good for them. Boys and girls, who never eat too much themselves, may be assured that Jumbo is quite as abstemious as any human being. He may, in the course of a few minutes, eat as many buns and oranges as would feast a boardaschool, but he will not swallow a morsel in excess of his huge and healthy appetite. It is true that, like other animals in captivity, a limitation of food may be desirable for Jumbo, and Mr. Bartlett was, no doubt, justified in expressing regret that the kindliness of the public should be manifested so lavishly as it is. But any fear lest the animal should incur sickness through eating to positive repletion may be set aside as baseless. Mr. William Newman, the experienced American trainer, who has been appointed to take charge of Jumbo, regards with perfect nonchalance the continual cramming of Jumbo by visitors of all ages. He says it is not as if every morsel were a mouthful, and he never knew an elephant accept more oranges than he could eat without it was proposed to remove the elephant, the council had ordered a competent surveyor, accompanied by an engineer, to examine and report upon it. In further addressing the meeting, Professor Flower said : As an elephant Jumbo was by no means perfect, as he wanted the most characteristic ornament of his race. He was certainly large, but his very size, which in one way added to his value, was in another way a serious detriment, as it added greatly to the danger and difficulty of keeping him. So great had been his (Professor Flower's) anxiety about Jumbo lately that he would most willingly have consented to his being given away for nothing. It was felt by the council to be better to be on the safe side, and to part with the elephant before any mischief was done. As to the 'morality' of the sale, as it had been termed, Professor Flower could not understand how any one who had ever sold a horse could call that in question. The purchasers were willing to take the animal, well knowing its defects, and the vendors were satisfied that it would pass into hands where every reasonable care would be taken of it. As for killing the elephant, which had been advocated by some persons, he thought there would have been no justification for such a course, when there was a prospect of its enjoying life under a different mode of treatment.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

MOTHS,
BEETLES,

THIS POWDER is quite HARMLESS to ANIMAL LIFE, but is unrivalled in destroying FLEAS, BUGS, COCKROACHES, BEETLES, MOTHS IN FURS, and every other species of insect. Sportsmen will find this invaluable for destroying fleas in their dogs, as also ladies for their pet dogs.

THIS ARTICLE has found so GREAT a SALE that it has tempted others to vend a so-called article in imitation. The PUBLIC are CAUTIONED that the tins of the genuine powder bear the autograph of THOMAS KEATING. Sold in Tins only.
